

QUERETARO IS HELD BY VILLA

Carranza Forces Evacuate City; Convention Moves to San Luis Potosi.

Queretaro has been abandoned by the forces of Carranza and occupied by Villa's troops. The city will be used as a concentration point for Villa's army before the advance on Mexico City. The national convention will move from Aguascalientes to San Luis Potosi, which will become the temporary capital.

Zapata Takes Puebla.
It is reported that Puebla has been captured after a severe battle by Zapata forces. Maj. Julio Madero was captured at Queretaro by his older brother, Gen. Raul Madero and is being sent a prisoner to Juarez. Julio Madero was a member of Gen. Obregon's staff. He will be deported at Juarez to the American side.

Indicates Fall of Carranza.
The abandonment by Carranza forces of Queretaro indicates the early collapse of the Carranza power, and a bloodless triumph for the convention forces led by Gen. Villa.
It had been expected that the Carranza forces under Gen. Pablo Gonzalez would have made their decisive stand at Queretaro. Even the Villa agents here did not expect such a move. The Carranza representatives, while admitting their ignorance of news from the interior, expressed belief that some surprise was in store for the apparently triumphant army of the north. However, they admitted their surprise at the report.

Stop Itching!

Zemo Stops It in a Jiffy—Conquers Eczema and Other Skin Troubles With Surprising Speed.

Send for Free Trial Bottle.
Instead of scratching or rubbing those itchy places (thus making the trouble worse and spreading the skin disease over a larger surface), why not just apply a little Zemo, and not only get immediate comfort, but lasting results? This clean, anti-septic, non-greasy liquid always does the work.

It's sure, safe and pleasant—cooling to burning, itching, tortured skin. Zemo goes to the very root of eczema and other skin troubles and gets results every time. Doesn't show on skin or soil clothing as greasy as salves do.
Thousands have proved Zemo. Now, you can prove it free by sending your address and 4 cents (actual postage) for trial bottle (in plain wrapper) to Dr. W. Rose Co. Laboratories, Dept. 38, St. Louis, Mo., or by purchasing a 25c bottle of Zemo from your druggist.
Zemo is sold and guaranteed by druggists everywhere, and in El Paso by Kelly & Pollard, and People's Drug Store.—Advertisement.

TUPPER HAILS MEXICAN PEACE

Does Not Say Who Is to Bring It About, or How; but Is Confident.

In referring to the Mexican situation, Dr. Henry Allen Tupper, of the International Peace Forum, who has recently spent two months in Mexico City and elsewhere in the republic, made this statement Friday:

"There is light behind the clouds and a brighter and better day will dawn upon the republic of Mexico. For centuries these people have been crushed into the dust; their property rights have been taken from them; their liberties have been denied them; their education has been neglected; and their manhood has been enslaved; and they have received the belittling and disparaging treatment of the sympathetic aid of the world.

"A gigantic effort is now being made by some of the most patriotic men of the republic to usher in a new era of peace, progress and prosperity; and, surely, the time has come when every one, who has any humanitarian instinct, should cease his bitter criticism and put the best interpretation upon the heroic efforts of the Mexicans, who sincerely desire to put glory in the place of shame upon their country."

The interests of the United States and Mexico are closely and mutually intermingled. A higher and nobler principle than merely the material should unite us; war devastated Europe must look to this hemisphere for the illustration and inspiration of the ideals of a true and uplifting civilization; no effort should be spared and no unselfish sacrifice should be made to cement the peace of the western world into a helpful brotherhood.

"My long and varied experience I have learned that the Mexicans are receptive of aid and responsive to helpfulness, untainted by selfish motives; and the hour has now been struck when a great opportunity and a grave responsibility rest upon Mexico's bigger brother, who has been greatly blessed that he may be a divine blessing."

200 MEXICAN PETITION PRESIDENT WILSON FOR AID.
Veracruz, Mex., Nov. 20.—Apprehension among a large part of the residents of Veracruz, both permanent and temporary, becomes more marked as the date of the evacuation of the city and its occupation by the Constitutionalist army draws near. Two hundred refugees Thursday telegraphed president Wilson appealing for aid to leave Veracruz.

Like many others of the refugees, the signers of the telegram are actually too poor to pay for their steamer passage, although some of them would be wealthy if their vested interests could be realized upon.

The Spanish consul reports that 11 textile mills valued at \$5,000,000 pesos, have been looted and burned near Puebla.

ALL FACTIONS UNITE FOR GEN. TRIVINO'S FUNERAL.
Washington, D. C., Nov. 20.—Reports to the state department say a marked spirit of good feeling among all factions in and around Monterey, Mexico, was produced by the tributes paid to the late Gen. Geronimo Trevino of the Mexican federal army, when his funeral services were held at Monterey recently.

Thousands of Constitutionalist soldiers were in the great hall which assembled for the funeral. Business was suspended in Monterey so that all classes might attend.
